- c) CHNA and Town Hall Research Process (A description of the process & methods used to conduct the CHNA, a description of how the organization considered the input of persons representing the community, and an explanation of the process/criteria used in prioritizing)
- d) Community Profile (A description of the community served by the facility and how the community was determined)

# **III.** Community Health Status

- a) Historical Community Health Indicators Review Secondary Data
- b) Current Community Health Status Online Feedback Research

# IV. Inventory of Existing County Health Resources

a) CHNA Inventory of PSA Services and Providers (A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA)

# V. Detail Exhibits

- a) Patient Origin & Access to Care
- b) Town Hall Attendees, Notes, and Feedback
- c) Public CHNA Notice / News
- d) Primary Research Detail

# I. Executive Summary

[VVV Consultants LLC]

# I. Executive Summary

MercyOne Newton Medical Center in partnership with the Jasper County Public Health Department – Jasper County, IA - 2022 Community Health Assessment (CHNA)

The previous CHNA/CHA and Health Implementation Plan for Jasper County was completed in 2019 collaboratively by the hospital and Jasper County Public Health Department. (Note: The Patient Protection and Affordable Care Act (ACA) require not-for-profit hospitals to conduct a CHNA every three years and adopt an implementation strategy to meet the needs identified by the CHNA). In addition, Public Health departments are required to complete CHA/CHIP every five years. Wave #4 Jasper County, IA CHNA assessment began in December of 2021 and was facilitated / created by VVV Consultants, LLC (Olathe, IA) staff under the direction of Vince Vandehaar, MBA.

Creating healthy communities requires a high level of mutual understanding and collaboration among community leaders. The development of this assessment brings together community health leaders and providers, along with the residents, to research and prioritize county health needs and document community health delivery success. This health assessment will serve as the foundation for community health improvement efforts for the next three years. **Important community CHNA Benefits** for both the local hospital and the health department, are as follows: 1.) Increases knowledge of community health needs and resources 2.) Creates common understanding of the priorities of the community's health needs 3.) Enhances relationships and mutual understanding between and among stakeholders 4.) Provides a basis upon which community stakeholders can make decisions about how they can contribute to improving the health of the community 5.) Provides rationale for current and potential funders to support efforts to improve the health of the community 6.) Creates opportunities for collaboration in delivery of services to the community and 7.) Provides guidance to the hospital and local health department for how they can align their services and community benefit programs to best meet needs, and 8.) fulfills Hospital "Mission" to deliver.

# **County Health Area of Future Focus on Unmet Needs**

Area Stakeholder held a community conversation to review, discuss and prioritize health delivery. Below are two tables reflecting community views and findings:

	Jasper County, IA								
	2022 CHNA Priorities - Unmet Needs								
	CHNA Wave #4 Town Hall - March 31,2022

# **Key CHNA Wave #4 Secondary Research Conclusions found:**

**IOWA HEALTH RANKINGS:** According to the 2021 Robert Woods Health Rankings, Jasper County, IA was ranked 69<sup>th</sup> in Health Outcomes, 45<sup>th</sup> in Health Factors, and 70<sup>th</sup> in Physical Environmental Quality out of the 99 Counties.

**TAB 1.** Jasper County's population is 37,185 (based on 2019). About six percent (5.7%) of the population is under the age of 5, while the population that is over 65 years old is 19.5%. There are 3.2% of citizens that speak a language other than English in their home. Children in single parent households make up a total of 20.1% compared to the rural norm of 18.2%, and 86.0% are living in the same house as one year ago.

**TAB 2.** In Jasper County, the average per capita income is \$28,604 while 8.5% of the population is in poverty. The severe housing problem was recorded at 10.1% compared to the rural norm of 10.9%. Those with food insecurity in Jasper County is 9.3%, and those having limited access to healthy foods (store) is 3.9%. Individuals recorded as having a long commute while driving alone is 36.0% compared to the norm of 25.4%.

**TAB 3.** Children eligible for a free or reduced-price lunch in Jasper County is 43.6%. Roughly ninety-four percent (93.9%) of students graduated high school compared to the rural norm of 90.3%, and 18.8% have a bachelor's degree or higher.

**TAB 4.** The number of births where prenatal care started in the first trimester (per 1,000) is 873.4 and 65.8 of births in Jasper County have a low birth weight. The number of births occurring to teens (15-19) per population of 1,000 females is 50.9 compared to the rural norm of 45.2. The number of births where the mother smoked during pregnancy (per 1,000) was recorded as 163.8 compared to the rural norm of 216.9.

- **TAB 5.** The Jasper County primary care service coverage ratio is 1 provider (county based officed physician who is a MD and/or DO) to 2,476 residents. Patients who reported "Yes", they would definitely recommend the hospital was 69.0%The average (median) time patients spend in the emergency department before leaving was 134 minutes compared to the rural norm of 114 minutes. The recorded preventable hospital rate per 100,000 of Medicare enrollees is 2,959.
- **TAB 6.** In Jasper County, 18.1% of the Medicare population has depression. The recorded age-adjusted suicide mortality rate per 100k is 18.3 (as of 2019). The age-adjusted poor mental health days per week for Jasper County is 3.7 compared to the rural norm of also 3.8.
- **TAB 7a 7b.** Jasper County has an obesity percentage of 37.9% and a physical inactivity percentage is 25.0%. The percentage of adults who smoke is 19.8%, while the excessive drinking percentage is 25.0%. The Medicare hypertension percentage is 54.2%, while their heart failure percentage is 11.7%. Those with chronic kidney disease amongst the Medicare population is 18.8% compared to the rural norm of 21.0%. The percentage of individuals who were recorded with COPD was 10.0%. Jasper County recorded 3.2% of individuals who have had a stroke and 7.1% of the population having cancer.
- **TAB 8.** The adult uninsured rate for Jasper County is 4.3% (based on 2019) compared to the rural norm of only 6.2%.
- **TAB 9.** The life expectancy rate in Jasper County for both females and males is roughly 79 years of age (79.2). The age-adjusted Cancer Mortality rate per 100,000 is 163.1, while the age-adjusted heart disease mortality rate per 100,000 is at 144.8. The alcohol impaired driving deaths percentage is 21.7% compared to the rural norm of 29.3%.
- **TAB 10.** A recorded 78.5% of Jasper County has access to exercise opportunities. Those reported having diabetes is 14.4%. Continually, 51.0% of women in Jasper County seek annual mammography screenings compared to the rural norm of 48.3%.

# **Key CHNA Wave #4 Primary Research Conclusions Found:**

Community feedback from residents, community leaders and providers (N=341) provided the following community insights through an online perception survey:

- Using a Likert scale, average between Jasper County stakeholders and residents that would rate the overall quality of healthcare delivery in their community as either Very Good or Good; is 59.4%.
- Jasper County stakeholders are satisfied with some of the following services:
   Ambulance Services, Eye Doctor, and Pharmacy.
- When considering past CHNA needs, the following topics came up as the most pressing: Mental Health, Drug / Substance Abuse, Homeless (Shelters), Obesity (Nutrition / Exercise), Emergency Room, Primary Care, Child Care Services, Visiting Specialists, Healthcare Transportation, and Senior Living / Care.

# II. Methodology

[VVV Consultants LLC]

# II. Methodology

## a) CHNA Scope and Purpose

The federal Patient Protection and Affordable Care Act (ACA) requires that each registered 501(c)3 hospital conduct a Community Health Assessment (CHNA) at least once every three years and adopt a strategy to meet community health needs. Any hospital that has filed a 990 is required to conduct a CHNA. IRS Notice 2011-52 was released in late fall of 2011 to give notice and request comments.

#### JOB #1: Meet/Report IRS 990 Required Documentation

- 1. A <u>description of the community served</u> by the facility and how the community was determined:
- 2. A <u>description of the process</u> and methods used to conduct the CHNA;
- 3. The <u>identity of any and all organizations</u> with which the organization collaborated and third parties that it engaged to assist with the CHNA;
- **4.** A <u>description of how</u> the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications;
- 5. A <u>prioritized description of all of the community needs</u> identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and
- **6.** A <u>description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.</u>

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: Government agencies with current information relevant to the health needs of the community and representatives or members in the community who are medically underserved, low-income, minority populations, and populations with chronic disease needs. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

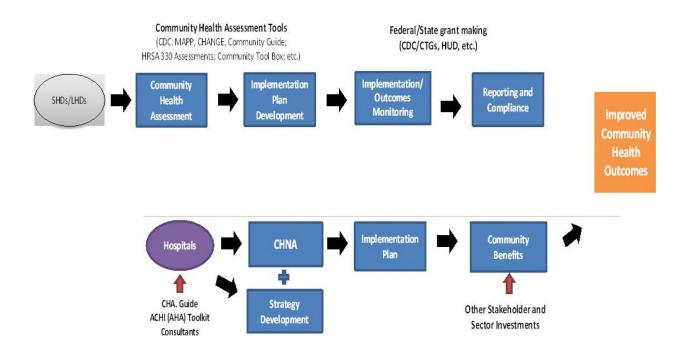

#### JOB #2: Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for **making a CHNA** "widely available to the **public**" after the rules currently in effect for Form 990. Accordingly, an organization would make a **facility's written report** widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format or (2) a link to another organization's website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.

#### JOB #3: Adopt an Implementation Strategy by Hospital

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an "implementation strategy" as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Great emphasis has been given to work hand-in-hand with leaders from hospitals, the state health department and the local health department. A common approach has been adopted to create the CHNA, leading to aligned implementation plans and community reporting.

## IRS Requirements Overview (Notice 2011-52)

Notice and Request for Comments Regarding the Community Health Assessment Requirements for Tax-exempt Hospitals

#### Applicability of CHNA Requirements to "Hospital Organizations"

The CHNA requirements apply to "hospital organizations," which are defined in Section 501(r) to include (1) organizations that operate one or more state-licensed hospital facilities, and (2) any other organization that the Treasury Secretary determines is providing hospital care as its principal function or basis for exemption.

#### How and When to Conduct a CHNA

Under Section 501(r), a hospital organization is required to conduct a CHNA for each of its hospital facilities once every three taxable years. *The CHNA must take into account input from persons representing the community served by the hospital facility and must be made widely available to the public.* The CHNA requirements are effective for taxable years beginning after March 23, 2012. As a result, a hospital organization with a June 30 fiscal year end must complete a CHNA full report every 3 years for each of its hospital facilities by fiscal June 30th.

#### **Determining the Community Served**

A CHNA must identify and assess the health needs of the **community served** by the hospital facility. Although the Notice suggests that geographic location should be the primary basis for defining the community served, it provides that the organization may also take into account the target populations served by the facility (e.g., children, women, or the aged) and/or the facility's principal functions (e.g., specialty area or targeted disease). A hospital organization, however, will not be permitted to define the community served in a way that would effectively circumvent the CHNA requirements (e.g., by excluding medically underserved populations, low-income persons, minority groups, or those with chronic disease needs).

#### **Persons Representing the Community Served**

Section 501(r) provides that a CHNA must take into account input from **persons who represent the broad interests of the community** served by the hospital facility, including individuals <u>with special knowledge of or expertise in public health</u>. Under the Notice, the persons consulted must also include:

(1) government agencies with current information relevant to the health needs of the community and (2) representatives or members of medically underserved, low-income, and minority populations, and populations with chronic disease needs, in the community. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

#### **Required Documentation**

The Notice provides that a hospital organization will be required to separately document the CHNA for each of its hospital facilities in a **written report** that includes the following information: 1) a description of the community served by the facility and how the community was determined; 2) a description of the process and methods used to conduct the CHNA; 3) the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA; 4) a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications; 5) a prioritized

description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and 6) a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

#### Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for making a CHNA "widely available to the public" after the rules currently in effect for Forms 990. Accordingly, an organization would make a facility's written report widely available by posting on its website either (1) the report itself, in a readily accessible format, or (2) a link to another organization's website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.

#### How and When to Adopt an Implementation Strategy

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an "implementation strategy" as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Under the Notice, an implementation strategy is considered to be "adopted" on the date the strategy is approved by the organization's board of directors or by a committee of the board or other parties legally authorized by the board to act on its behalf. Further, the formal adoption of the implementation strategy must occur by the end of the same taxable year in which the written report of the CHNA findings was made available to the public. For hospital organizations with a June 30 fiscal year end, that effectively means that the organization must complete and appropriately post its first CHNA no later than its fiscal year ending June 30, 2013, and formally adopt a related implementation strategy by the end of the same tax year. This final requirement may come as a surprise to many charitable hospitals, considering Section 501(r) contains no deadline for the adoption of the implementation strategy.

# IRS Community Health Assessment for Charitable Hospital Organizations -Section 501(0(3) Last Reviewed or Updated: 21-Aug-2020

In addition to the general requirements for tax exemption under Section 501(c)(3) and Revenue Ruling 69-545hospital organizations must meet the requirements imposed by Section 501(r) on a facility-by-facility basis in order to be treated as an organization described in Section 501(c)(3). These additional requirements are:

- 1. Community Health Assessment (CHNA) Section 501(r)(3),
- 2. Financial Assistance Policy and Emergency Medical Care Policy Section 501(r)(4),
- 3. Limitation on Charges Section 501(r)(5), and
- 4. Billing and Collections Section 501(r)(6).

Medically underserved populations include populations experiencing health disparities or that are at risk of not receiving adequate medical care because of being uninsured or underinsured, or due to geographic, language, financial, or other barriers. Populations with language barriers include those with limited English proficiency. Medically underserved populations also include those living within a hospital facility's service area but not receiving adequate medical care from the facility because of cost, transportation difficulties, stigma, or other barriers.

Additionally, in determining its patient populations for purposes of defining its community, a hospital facility must take into account all patients without regard to whether (or how much) they or their insurers pay for the care received or whether they are eligible for assistance under the hospital facility's financial assistance policy. If a hospital facility consists of multiple buildings that operate under a single state license and serve different geographic areas or populations, the community served by the hospital facility is the aggregate of these areas or populations.

#### **Additional Sources of Input**

In addition to soliciting input from the three required sources, a hospital facility may solicit and take into account input received from a broad range of persons located in or serving its community. This includes, but is not limited to:

.

Health care consumers and consumer advocates

 Nonprofit and community-based organizations

Academic experts

Local government officials

Local school districts

Health care providers and community health centers

Health insurance and managed care organizations,

Private businesses, and

Labor and workforce representatives.

Although a hospital facility is not required to solicit input from additional persons, it must take into account input received from any person in the form of written comments on the most recently conducted CHNA or most recently adopted implementation strategy.

#### **Collaboration on CHNA Reports**

A hospital facility is permitted to conduct its CHNA in collaboration with other organizations and facilities. This includes related and unrelated hospital organizations and facilities, for-profit and government hospitals, governmental departments, and nonprofit organizations.

In general, every hospital facility must document its CHNA in a separate CHNA report unless it adopts a joint CHNA report. However, if a hospital facility is collaborating with other facilities and organizations in conducting its CHNA, or if another organization has conducted a CHNA for all or part of the hospital facility's community, portions of a hospital facility's CHNA report may be substantively identical to portions of the CHNA reports of a collaborating hospital facility or other organization conducting a CHNA, if appropriate under the facts and circumstances.

If two hospital facilities with overlapping, but not identical, communities collaborate in conducting a CHNA, the portions of each hospital facility's CHNA report relevant to the shared areas of their communities might be identical. So, hospital facilities with different communities, including general and specialized hospitals, may collaborate and adopt substantively identical CHNA reports to the extent appropriate. However, the CHNA reports of collaborating hospital facilities should differ to reflect any material differences in the communities served by those hospital facilities. Additionally, if a governmental public health department has conducted a CHNA for all or part of a hospital facility's community, portions of the hospital facility's CHNA report may be substantively identical to those portions of the health department's CHNA report that address the hospital facility's community.

Collaborating hospital facilities may produce a joint CHNA report as long as all of the collaborating hospital facilities define their community to be the same and the joint CHNA report contains all of the same basic information that separate CHNA reports must contain. Additionally, the joint CHNA report must be clearly identified as applying to the hospital facility.

#### **Joint Implementation Strategies**

As with the CHNA report, a hospital facility may develop an implementation strategy in collaboration with other hospital facilities or other organizations. This includes but is not limited to related and unrelated hospital organizations and facilities, for-profit and government hospitals, governmental departments, and nonprofit organizations. In general, a hospital facility that collaborates with other facilities or organizations

in developing its implementation strategy must still document its implementation strategy in a separate written plan that is tailored to the particular hospital facility, taking into account its specific resources. However, a hospital facility that adopts a joint CHNA report may also adopt a joint implementation strategy. With respect to each significant health need identified through the joint CHNA, the joint implementation strategy must either describes how one or more of the collaborating facilities or organizations plan to address the health need or identify the health need as one the collaborating facilities or organizations do not intend to address. It must also explain why they do not intend to address the health need.

A joint implementation strategy adopted for the hospital facility must also: Be clearly identified as applying to the hospital facility, Clearly identify the hospital facility's role and responsibilities in taking the actions described in the implementation strategy as well as the resources the hospital facility plans to commit to such actions, and Include a summary or other tool that helps the reader easily locate those portions of the joint implementation strategy that relate to the hospital facility.

#### **Adoption of Implementation Strategy**

An authorized body of the hospital facility must adopt the implementation strategy. See the discussion of the Financial Assistance Policy below for the definition of an authorized body. This must be done on or before the 15th day of the fifth month after the end of the taxable year in which the hospital facility finishes conducting the CHNA. This is the same due date (without extensions) of the Form 990.

**Acquired Facilities** A hospital organization that acquires a hospital facility (through merger or acquisition) must meet the requirements of Section 501(r)(3) with respect to the acquired hospital facility by the last day of the organization's second taxable year beginning after the date on which the hospital facility was acquired. In the case of a merger that results in the liquidation of one organization and survival of another, the hospital facilities formerly operated by the liquidated organization will be considered "acquired," meaning they will have until the last day of the second taxable year beginning after the date of the merger to meet the CHNA requirements. Thus, the final regulations treat mergers equivalently to acquisitions.

#### **New Hospital Organizations**

An organization that becomes newly subject to the requirements of Section 501(r) because it is recognized as described in Section 501(c)(3) and is operating a hospital facility must meet the requirements of Section 501(r)(3) with respect to any hospital facility by the last day of the second taxable year beginning after the latter of: The effective date of the determination letter recognizing the organization as described in Section 501(c)(3), or  $\cdot$  The first date that a facility operated by the organization was licensed, registered, or similarly recognized by a state as a hospital.

#### **New Hospital Facilities**

A hospital organization must meet the requirements of Section 501(r)(3), with respect to a new hospital facility it operates by the last day of the second taxable year beginning after the date the facility was licensed, registered, or similarly recognized by its state as a hospital.

#### **Transferred/Terminated Facilities**

A hospital organization is not required to meet the requirements of Section 501(r)(3) with respect to a hospital facility in a taxable year if the hospital organization transfers all ownership of the hospital facility to another organization or otherwise ceases its operation of the hospital facility before the end of the taxable year. The same rule applies if the hospital facility ceases to be licensed, registered, or similarly recognized as a hospital by a state during the taxable year. By extension, a government hospital organization that voluntarily terminates its Section 501(c)(3) recognition as described in Rev. Proc. 2018-5 (updated annually) is no longer considered a hospital organization for purposes of Section 501(r) and therefore is not required to meet the CHNA requirements during the taxable year of its termination.

### **Public Health Criteria:**

# <u>Domain 1: Conduct and disseminate assessments focused on population health status and public health issues facing the community.</u>

Domain 1 focuses on the assessment of the health of the population in the jurisdiction served by the health department. The domain includes systematic monitoring of health status; collection, analysis, and dissemination of data; use of data to inform public health policies, processes, and interventions; and participation in a process for the development of a shared, comprehensive health assessment of the community.

#### **DOMAIN 1 includes 4 STANDARDS:**

- Standard 1.1 Participate in or Conduct a Collaborative Process Resulting in a Comprehensive Community Health Assessment
- Standard 1.2 Collect and Maintain Reliable, Comparable, and Valid Data That Provide Information on Conditions of Public Health Importance and on the Health Status of the Population
- Standard 1.3 Analyze Public Health Data to Identify Trends in Health Problems, Environmental Public Health Hazards, and Social and Economic Factors That Affect the Public's Health
- Standard 1.4 Provide and Use the Results of Health Data Analysis to Develop Recommendations Regarding Public Health Policy, Processes, Programs, or Interventions

#### **Required CHNA Planning Process Requirements:**

- a. Participation by a wide range of community partners.
- b. Data / information provided to participants in CHNA planning process.
- c. Evidence of community / stakeholder discussions to identify issues & themes. Community definition of a "healthy community" included along with list of issues.
- d. Community assets & resources identified.
- e. A description of CHNA process used to set priority health issues.

#### **Seven Steps of Public Health Department Accreditation (PHAB):**

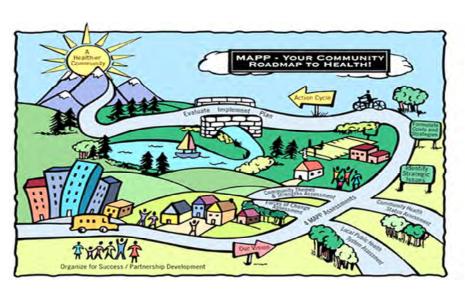

- 1. Pre-Application
- 2. Application
- 3. Document Selection and Submission
- 4. Site Visit
- 5. Accreditation Decision
- 6. Reports
- 7. Reaccreditation

### **MAPP Process Overview**

**Mobilizing for Action through Planning and Partnerships (MAPP)** is a flexible strategic planning tool for improving the health and quality of life for the community. Like most strategic planning, MAPP involves organizing partners, creating a vision and shared values, collecting data, identifying areas for improvement, and developing goals and strategies to address them. Through collaboration with partners and the community, MAPP allows us to focus our efforts and work on issues to strengthen the local public health system.

The MAPP process includes the following six phases. It's important to note that MAPP has no set end point and will continue throughout the life cycle of the Community Health Improvement Plan (CHIP).

- 1. In this first phase, **Organize for Success/Partnership Development**, various sectors of the community with established relationships are reviewed, leading to the identification of areas for partnership development and creation of new relationships to enhance the MAPP process.
- 2. In the second phase, **Visioning**, a shared community vision and common values for the MAPP process are created.
- 3. In the third phase, **Four MAPP Assessments**, data is collected from existing and new sources about the health of our community, which results in a Community Health Assessment (CHA).
- 4. In the fourth phase, **Identify Strategic Issues**, community partners and health professionals select issues based on data collected from the third phase that are critical to the local public health system and align with the vision from the second phase.
- 5. In the fifth phase, **Formulate Goals and Strategies**, potential ways to address the strategic issues are identified by the community along with the setting of achievable goals. The final result is a Community Health Improvement Plan (CHIP).
- 6. The sixth and final phase of the MAPP process is the **Action Cycle**, which is where the work happens for meeting the objectives set in the previous phase. Through these collaborative efforts, the health of the community is improved.

# **Drivers of Health Assessment & Improvement Planning**

Different drivers have led health agencies and organizations to institutionalize community health assessment and community health improvement planning in recent years.

#### **National Voluntary Accreditation Requirements**

In 2011, the Public Health Accreditation Board (PHAB), in partnership with key public health organizations, launched a new national voluntary accreditation program for state, tribal, local, and territorial health departments. The standards and measures encompass 12 domains of performance and include a comprehensive community health assessment (Domain 1, Standard 1.1) and a community health improvement plan (Domain 5, Standard 5.2). A documented community health assessment and improvement plan are two of the three prerequisites for applying to PHAB. PHAB requires that these processes be conducted collaboratively and that the documents be dated within the last five years. More information is available from <a href="PHABexternal icon">PHABexternal icon</a> and <a href="CDC">CDC</a>.

#### **CDC Grant Requirements**

CDC grants often require or encourage completing a community health assessment or improvement plan. In some cases, these plans provide valuable information for identifying priority health issues or needs. Examples include; National Public Health Improvement Initiative (NPHII); Community Transformation Grants or REACH Core

The Public Health Accreditation board defines *community health assessment* as a systematic examination of the health status indicators for a given population that is used to identify key problems and assets in a community. The ultimate goal of a community health assessment is to develop strategies to address the community's health needs and identified issues. A variety of tools and processes may be used to conduct a community health assessment; the essential ingredients are community engagement and collaborative participation. Turnock B. *Public Health: What It Is and How It Works. Jones and Bartlett, 2009,* as adapted in *Public Health Accreditation Board Acronyms and Glossary of Terms Version* 1.0 Cdc-pdf[PDF – 536KB]External, July 2011.

The Catholic Health Association defines a *Community Health Assessment* as a systematic process involving the community to identify and analyze community health needs and assets in order to prioritize these needs, and to plan and act upon unmet community health needs." Catholic Health Association, *Guide to Assessing and Addressing Community Health Needs* Cdc-pdf[PDF-1.5MB]External, June 2013.

### **Social Determinants of Health**

What Are Social Determinants of Health?

<u>Social determinants of health (SDOH)external icon</u> are defined as the conditions in which people are born, grow, live, work, and age. SDOH are shaped by the distribution of money, power, and resources throughout local communities, nations, and the world. Differences in these conditions lead to health inequities or the unfair and avoidable differences in health status seen within and between countries.

<u>Healthy People 2030external icon</u> includes SDOH among its leading health indicators. One of Healthy People 2030's five overarching goals is specifically related to SDOH: Create social, physical, and economic environments that promote attaining the full potential for health and well-being for all.

Through broader awareness of how to better incorporate SDOH throughout the multiple aspects of public health work and the <u>10 Essential Public Health Services</u>, public health practitioners can transform and strengthen their capacity to advance health equity. Health equity means that everyone has a fair and just opportunity to be as healthy as possible. This requires removing obstacles to health, such as poverty, discrimination, and their consequences, including powerlessness and lack of access to good jobs with fair pay, quality education and housing, safe environments, and health care.

## MercyOne Newton Medical Center

204 N. 4th Ave E. Newton, Iowa 50208 Phone: (641) 792-1273 President: Laurie Conner

#### ABOUT:

MercyOne Newton Medical Center is a fully owned hospital of MercyOne Des Moines Medical Center and a member of MercyOne Network. It is located in the city of Newton, Iowa, county seat of Jasper County. Positioned on Interstate 80, the nation's only east/west transcontinental interstate highway, Newton is about 30 miles east of the Des Moines metropolitan area which has a population in excess of 400,000.

MercyOne Newton's main campus in Newton has 48 beds and about 200,000 square feet of space. Attached to the hospital is a 50,000-square-foot medical office building containing local physician practices and the hospital's physical medicine and rehabilitation center and other clinics. With 200-plus employees, MercyOne Newton is one of the largest employers in Jasper County, along with the local school system and the county government.

**MISSION:** MercyOne serves with fidelity to the Gospel as a compassionate, healing ministry of Jesus Christ to transform the health of our communities

**VISION:** MercyOne will set the standard for a personalized and radically convenient system of health services.

#### **CORE VALUES:**

- Integrity: We are faithful to who we say we are
- **Commitment to the Poor:** We stand with and serve those who are poor, especially the most vulnerable.
- Compassion: Solidarity with one another, capacity to enter into another's joy and sorrow.
- **Excellence:** Preeminent performance, becoming the benchmark, putting forth our personal and professional best.
- **Justice:** We foster right relationships to promote the common good, including sustainability of the Earth.
- **Stewardship**: We honor our heritage and hold ourselves accountable for the human, financial and natural resources entrusted to our care.
- Reverence: We honor the sacredness and dignity of every person.

#### **OUR CULTURAL BELIEFS:**

- **Be ONE:** I benefit from and strengthen MercyOne.
- Personalize Care: Your experience. My responsibility.
- Own It!: I own my actions to deliver our key results.
- Improve Daily: I make improvements every day for those we serve including each other.
- Innovate: I imagine and embrace bold new ideas to revolutionize health.

MercyOne Newton Medical Center is proud to offer a full spectrum of services, from family health services and primary care to surgery to the skilled care provided by the visiting physicians in the MercyOne Newton Specialty Clinic.

- Audiology Care
- Cancer and Infusion Care
- Cardiac Rehab
- Care Coordination
- Clinics
- Diabetes Education
- Emergency Care
- Nutrition & Wellness
- Imaging and Radiology
- Laboratory Services
- Obstetrics and Maternity Care

- Occupational Therapy

#### **Consultant Qualifications:**

VVV Consultants LLC 601 N. Mahaffie, Olathe, KS 66061 (913) 302-7264

VVV Consultants LLC is an Olathe, KS based "boutique" healthcare consulting firm specializing in Strategy, Research and Business Development services. To date we have completed 70 unique community CHNA's in KS, MO, IA and NE (references found on our website <a href="VandehaarMarketing.com">VandehaarMarketing.com</a>

Vince Vandehaar, MBA — Principal VVV Consultants LLC — start 1/1/09 \*

- Adjunct Full Professor @ Avila and Webster Universities
- 35+ year veteran marketer, strategist and researcher
- Saint Luke's Health System, BCBS of KC,
- Tillinghast Towers Perrin, and Lutheran Mutual Life
- Hometown: Bondurant IA

Cassandra Kahl, BHS MHA – Director, Project Management VVV Consultants LLC – Nov 2020

- University of Kansas Health Sciences (BHS)
  - Park University Masters of Health Administration (MHA)
- Pharmacy Management (CVS) − 2 ½ years
- Hometown: Maple, WI

VVV Consultants LLC (EIN 27-0253774) began as "VVV Research & Development INC" in early 2009 and converted to an LLC on 12/24/12. Web: VandehaarMarketing.com

**Our Mission:** to research, facilitate, train, and create processes to improve healthcare delivery and uncover strategic "critical success" initiatives.

**Our Vision:** meeting today's challenges with the voice of the market.

#### Our Values:

- "Community" Industry engagement...membership AMA KC, ACHE, EPBA, Forum and SHSMD.
- "Stewardship" Fair fees based on client, project scope, turnaround time, etc.
- "Integrity" Trustworthy delivery with numerous client recommendations / endorsements.
- "Experience" Skilled consulting; Marketing careers. We understand business because we have been there!
- "Growth" Process-driven; ongoing innovational delivery.

# II. Methodology

# c) CHNA and Town Hall Research Process

Wave #4 Community Health Assessment (CHNA) process began in December of 2021 for MercyOne Newton Medical Center (NMC) located in Jasper County, IA to meet Federal IRS CHNA requirements.

In early November 2021, a meeting was called amongst the NMC leaders to review CHNA collaborative options. <Note: VVV Consultants LLC from Olathe, KS was asked to facilitate this discussion with the following agenda: VVV CHNA experience, review CHNA requirements (regulations) and discuss CHNA steps/options to meet IRS requirements and to discuss next steps.> Outcomes from discussion led to NMC requesting VVV Consultants LLC to complete a CHNA IRS aligned comprehensive report.

#### **VVV CHNA Deliverables:**

- Document Hospital Primary Service Area meets the 80-20 Patient Origin Rule.
- Uncover / document basic secondary research county health data, organized by 10 tabs.
- Conduct / report CHNA Community Check-in Feedback Findings (primary research).
- Conduct a Town Hall meeting to discuss with community secondary & primary data findings leading to determining (prioritizing) county health needs.
- Prepare & publish CHNA report which meets ACA requirements.

To ensure proper PSA Town Hall representation (that meets the 80-20 Patient Origin Rule), a patient origin two-year summary was generated documenting patient draw by zips as seen below:

Newton Medical Center - Define PSA						Inpatients			Emergency			Outpatients		
Source: KHA - FFY	122,913	Totals	- IP/OP	1,015	902	864	9,419	8,267	8,492	31,848	29,060	31,283

50170 - Monroe	JASPER	2,817	2.3%	86.7%	21	11	12	160	126	108	781	715	851	

# To meet IRS aligned CHNA requirements and meet Public Health accreditation criteria stated earlier, a four-phase methodology was followed:

#### Phase I—Discovery:

Conduct a 30-minute conference call with the CHNA county health department and hospital clients. Review / confirm CHNA calendar of events, explain / coach clients to complete required participant database and schedule / organize all Phase II activities.

#### **Phase II—Qualify Community Need:**

A) Conduct secondary research to uncover the following historical community health status for the primary service area. Use valid health indicator sources cited to document current state of county health organized as follows:

Health Indi	cators - Secondary Research
TAB 1. Demogr	aphic Profile
TAB 2. Econon	nic Profile
TAB 3. Educati	onal Profile
TAB 4. Materna	al and Infant Health Profile
TAB 5. Hospita	I / Provider Profile
TAB 6. Behavio	oral / Mental Health Profile
TAB 7. High-Ri	sk Indicators & Factors
TAB 8. Uninsu	red Profile
TAB 9. Mortalit	y Profile
TAB 10. Prever	ntative Quality Measures

B) Survey Community Stakeholders to inquire about past CHNA unmet needs and obtain current health delivery trends and document on going health issues.

#### Phase III—Quantify Community Need:

Conduct a 90-minute Town Hall meeting with required community primary service area residents. At each Town Hall meeting, CHNA secondary data will be reviewed, facilitated group discussion will occur and a group ranking activity to determine the most important community unmet health needs was administered.

# <u>Phase IV—Complete Data Analysis and Create Comprehensive Community Health</u> <u>Assessment:</u>

Complete full documentation to create each CHNA sections documented in Table of Contents. Publish hard copy reports (2) for client usage plus create a full CHNA report pdf to be posted on hospital website to meet government CHNA regulation criteria.

# **Detail CHNA Development Steps Include:**

Development Steps to Create Comprehensive						
Comn	nunity Health Assessment					
Step # 1 Commitment	Determine interest level of area healthcare leaders (Hospital, Health Dept., Mental Health Centers, Schools, Churches, Physicians etc.), prepare project quote.					
Step # 2 Planning	Prepare brief CHNA Project Work Calendar - list goals, objectives, purpose, outcome, roles, community involvement, etc. Hold Community Kick-off meeting.					
Step # 3 Secondary Research	Collect & Report Community Health Published Facts.  Gather data health practice data from published secondary research sources i.e. census, county health records, behavioral risk factors surveillance, etc.					
Step # 4a Primary Research - Town Hall prep	Collect Community Opinions. (Quantitative Research). Gather Stakeholders / Community opinions regarding community health needs and healthcare practices.					
Step # 4b Primary Research - Conduct Town Hall	Conduct "Conversation with Community" Town Hall (Qualitative Research). Review Secondary & Primary Data findings. Facilatate community conversation to build consensus; discuss opinions / identify health needs.					
Steps # 5 Reporting	Prepare/Present comprehensive CHNA report (to community leaders), facilitate development of CHNA Implementation Plan (Actions to improve health). < Note: Formal report will follow IRS Notice 2011-52 regs & PHAB requirements. >					
VVV Consultants, LLC Olathe, KS	913 302-7264					

#### **Data & Benchmarks Review**

Community health assessments typically use both primary and secondary data to characterize the health of the community:

- **Primary data** are collected first-hand through surveys, listening sessions, interviews, and observations.
- **Secondary data** are collected by another entity or for another purpose.
- Indicators are secondary data that have been analyzed and can be used to compare rates or trends of priority community health outcomes and determinants.

Data and indicator analyses provide descriptive information on demographic and socioeconomic characteristics; they can be used to monitor progress and determine whether actions have the desired effect. They also characterize important parts of health status and health determinants, such as behavior, social and physical environments, and healthcare use.

Community health assessment indicators should be.

- Methodologically sound (valid, reliable, and collected over time)
- Feasible (available or collectable)
- Meaningful (relevant, actionable, and ideally, linked to evidence-based interventions)
- Important (linked to significant disease burden or disparity in the target community)

Jurisdictions should consider using data and indicators for the smallest geographic locations possible (e.g., county-, census block-, or zip code-level data), to enhance the identification of local assets and gaps.

Local reporting (county specific) sources of community-health level indicators:

CHNA Detail Resources					
Quick Facts - Business					
Centers for Medicare and Medicaid Services					
CMS Hospital Compare					
County Health Rankings					
Quick Facts - Geography					
Quick Facts - People					
U.S. Department of Agriculture - Food Environment Atlas					
U.S. Center for Disease Control and Prevention					

#### Sources of community-health level indicators:

#### County Health Rankings and Roadmaps

The annual Rankings measure vital health factors, including high school graduation rates, obesity, smoking, unemployment, access to healthy foods, the quality of air and water, income inequality, and teen births in nearly every county in America. They provide a snapshot of how health is influenced by where we live, learn, work and play.

#### Prevention Status Reports (PSRs)

The PSRs highlight—for all 50 states and the District of Columbia—the status of public health policies and practices designed to prevent or reduce important public health problems.

#### Behavioral Risk Factor Surveillance System

The world's largest, ongoing telephone health survey system, tracking health conditions and risk behaviors in the United States yearly since 1984. Data are collected monthly in all 50 states, the District of Columbia, Puerto Rico, the US Virgin Islands, and Guam.

- The <u>Selected Metropolitan/ Micropolitan Area Risk Trends</u> project was an outgrowth of BRFSS from the increasing number of respondents who made it possible to produce prevalence estimates for smaller statistical areas.
- <u>CDC Wonder</u> Databases using a rich ad-hoc query system for the analysis of public health data. Reports and other query systems are also available.

#### <u>Center for Applied Research and Engagement Systems external icon</u>

Create customized interactive maps from a wide range of economic, demographic, physical and cultural data. Access a suite of analysis tools and maps for specialized topics.

#### Community Commons external icon

Interactive mapping, networking, and learning utility for the broad-based healthy, sustainable, and livable communities' movement.

#### Dartmouth Atlas of Health Care external icon

Documented variations in how medical resources are distributed and used in the United States. Medicare data used to provide information and analysis about national, regional, and local markets, as well as hospitals and their affiliated physicians.

#### Disability and Health Data System

Interactive system that quickly helps translate state-level, disability-specific data into valuable public health information.

#### Heart Disease and Stroke Prevention's Data Trends & Maps

View health indicators related to heart disease and stroke prevention by location or health indicator.

#### National Health Indicators Warehouse external icon

Indicators categorized by topic, geography, and initiative.

#### US Census Bureau external icon

Key source for population, housing, economic, and geographic information.

#### US Food Environment Atlas external icon

Assembled statistics on food environment indicators to stimulate research on the determinants of food choices and diet quality, and to provide a spatial overview of a community's ability to access healthy food and its success in doing so.

#### Centers for Medicare & Medicaid Services Research and Data Clearinghouse external icon Research, statistics, data, and systems.

#### • Environmental Public Health Tracking Network

System of integrated health, exposure, and hazard information and data from a variety of national, state, and city sources.

#### Health Research and Services Administration Data Warehouse external icon

Research, statistics, data, and systems.

#### Healthy People 2030 Leading Health Indicators external icon

Twenty-six leading health indicators organized under 12 topics.

#### Kids Count external icon

Profiles the status of children on a national and state-by-state basis and ranks states on 10 measures of well-being; includes a mobile site external icon.

#### National Center for Health Statistics

Statistical information to guide actions and policies.

#### Pregnancy Risk Assessment and Monitoring System

State-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy.

#### Web-based Injury Statistics Query and Reporting System (WISQARS)

Interactive database system with customized reports of injury-related data.

#### Youth Risk Behavior Surveillance System

Monitors six types of health-risk behaviors that contribute to the leading causes of death and disability among youth and adults.

#### **II. Review CHNA Focus and Process** Town Hall Roles / Duties

#### Attendees

- Have engaging conversation (Be specific)
- No right or wrong answer
- Truthful responses
- Take Notes Make your list of important health indicators
- Complete unmet needs poll Representing community
- Chat Log thoughts during meeting
- Have Fun..

6

8

#### Local Leads (Breakout Rooms)

- Facilitate community conversation
- Ensure team involvement Everyone participates

#### II. Review of a CHNA

- . A Community Health Assessment (CHNA) is a ....
  - Systematic collection, assembly, analysis, and dissemination of information about the health of the community.
- A CHNA's role is to....

5

- <u>Identify</u> factors that affect the health of a population and <u>determine</u> the availability of resources to adequately address those factors.
- Purpose of a CHNA Why Conduct One?
  - Determine health-related trends and issues of the community
  - Understand / evaluate health delivery programs in place.
  - Meet Federal requirements both local hospital and health department
  - Develop Implementation Plan strategies to address unmet health needs (4-6 weeks after Town Hall)

### I. Introductions: A Conversation with the **Community & Stakeholders**

Community members and organizations invited to CHNA Town Hall

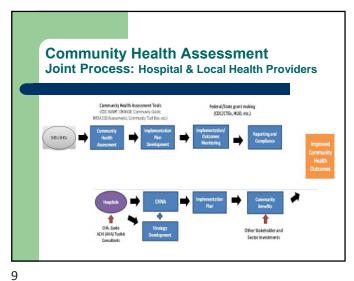

Consumers: Uninsured/underinsured people. Members of at-risk populations. Parents, caregivers and other consumers of health care in the community, and Consumer advocates.

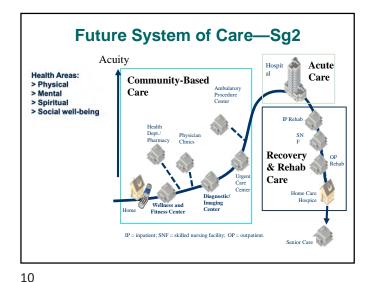

Community leaders and groups: The hospital organization's board members, Local clergy and congregational leaders, Presidents or chairs of civic or service clubs — Chamber of Commerce, veterans' organizations, Lions, Rotary, etc., Representatives from businesses — owners/CEO's of large businesses (local or large corporations with local branches.).Business people & merchants (e.g., who sell tobacco, alcohol, or other drugs), Representatives from organized labor, Political, appointed and elected officials., Foundations., United Way organizations. And other "community leaders."

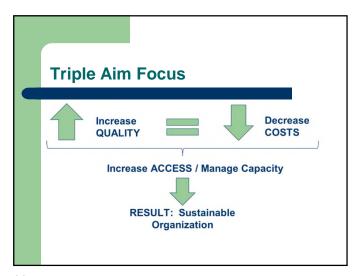

Public and other organizations: Public health officials. Directors or staff of health and human service organizations. City/Community planners and development officials, Individuals with business and economic development experience, Welfare and social service agency staff, Housing advocates - administrators of housing programs: homeless shelters, low-income-family housing and senior housing, Education officials and staff - school superintendents, principals and teachers, Public safety officials, Staff from state and area agencies on aging, Law enforcement agencies - Chiefs of police, Local colleges and universities, Coalitions working on health or other issues.

Other providers: Physicians, Leaders in other not-for-profit health care organizations, such as hospitals, clinics, nursing homes and home-based and community-based services, Leaders from Catholic Charities and other faith-based service providers, Mental health providers, Oral health providers, Health insurers, Parish and congregational nursing programs, Other health professionals

# III. Community Health Status

[VVV Consultants LLC]

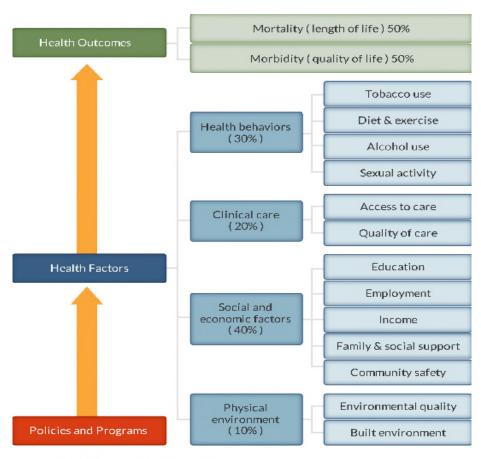

# **III. Community Health Status**

# a) Historical Health Statistics- Secondary Research

## **Health Status Profile**

This section of the CHNA reviews published quantitative community health indicators from public health sources and results of community primary research. To produce this profile, VVV Consultants LLC staff analyzed & trended data from multiple sources. This analysis focuses on a set of published health indicators organized by ten areas of focus (10 TABS), results from the 2020 RWJ County Health Rankings and conversations from Town Hall participates. <u>Each table published reflects a Trend column, with GREEN denoting growing/high performance indicators, YELLOW denoting minimal change/average performance indicators and RED denoting declining/low performance indicators.</u>

Note: The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual *County Health Rankings*. As seen below, RWJ's model use a number of health factors to rank each county.

County Health Rankings model ©2012 UWPHI

## National Research – Year 2021 RWJ Health Rankings:

#	IA Rankings - 99 Counties	Definitions	Jasper Co.	Trend	Rural IA Co Norm N=16

### **PSA Secondary Research:**

When studying community health, it's important to document health data by topical areas for primary service area (PSA). Below is a summary of key findings organized by subject area.

Note: Each Tab has been trended to reflect County trends to NORM.

Health Indicators - Secondary Research

Public Health **Date:** 1/31/2021

**To:** Community Leaders, Providers and Hospital Board and Staff **Subject:** Jasper County Community Health Assessment 2022

MercyOne Newton Medical Center and Jasper County Public Health are working together with other community health providers to update the Jasper County Community Health Assessment. The goal of this assessment update is to understand progress in addressing health needs cited in the 2019 CHNA report and to collect upto-date community health perceptions for 2022.

VVV Consultants LLC, an independent healthcare consulting firm from Olathe, KS, has been retained to conduct this countywide research. All responses will be confidential.

To gather community feedback, a short and confidential online survey has been developed. It can be accessed through the link below

LINK: https://www.surveymonkey.com/r/CHNA2022\_MercyOneNewtonIA

All community residents and business leaders are encouraged to complete the 2022 CHNA online survey by **Monday, March 3**<sup>rd</sup>. In addition, please HOLD the date for the <u>virtual</u> Town Hall meeting scheduled **Thursday, March 31**<sup>st</sup>, from **11:30 p.m.** - **1:00 p.m**.

Thank you in advance for your time and support!

Please contact the PR department at MercyOne Newton with any questions at PR@skiffmed.com

Date: 1/25/2022 for Media Release: 1/31/22

RE: Jasper County Community Health Assessment

## **Jasper County Seeking Public Feedback on Health Needs**

MercyOne Newton Medical Center and Jasper County Public Health will be working together in the coming months with community leaders and health care providers to update the 2022 Jasper County Community Health Assessment (CHNA) previously done in 2019. These partners are seeking input from the public to understand the healthcare needs of Jasper County residents.

The goal of this assessment update is to understand progress in addressing health needs cited in the 2019 CHNA report and to collect up-to-date community health perceptions. VVV Consultants LLC, an independent health care consulting firm from Olathe, Kan., has been retained to conduct countywide research. A brief community survey has been developed in order to accomplish this work.

To access the link to participate in this survey, please visit MercyOne Newton Medical Center web site, Jasper County Public Health web site, or their social media sites. Responses are confidential, and the survey takes about 5 to 10 minutes to complete.

All community residents and business leaders are encouraged to complete the 2022 CHNA online survey by Thursday, March 3. Additionally, interested participants may join a virtual town hall meeting on Thursday, March 31 from 11:30 a.m.-1 p.m.

To learn more about CHNA activities or to participate in the town hall, e-mail MercyOne Newton at pr@skiffmed.com.

			Very Good	Increasing - moving up	SURG			surgeon on call

			CHNA 2022 Con	nmur	ity F	eedb	ack: Jasper Co, IA (N=341)
ID	Zip	Rating	Movement	c1	c2	с3	Outcome of care is also vitally important. Is the outcome / delivery of care fulfilling the needs for you and the community?
1150	50028	Good	Not really changing much	ACC	TELE		Limited access - would like to see satellite providers in small towns surrounding and supporting Jasper County
1275	50208	Average	Not really changing much	AGE	QUAL		There needs to be better in home care for older people and better help for parents.
1165	50208	Very Poor	Decreasing - slipping downward	ALL	QUAL		There have been enough dissatisfied residents of this community to turn a blind eye to it. There needs to be something done. Mercy One has not held up a standard of care that is expected of the name.
1004	50208	Good	Not really changing much	BH	DRUG		mental health and drug abuse
1229		Average	Not really changing much	BH	FF	COMM	
	50208	Good	Increasing - moving up	BH			Mental health
1208	50208	Average	Increasing - moving up	BH			More time for mental health
1169	50208	Good	Not really changing much	BH			Mental health
1149		Good	Not really changing much	CLIN	ACC		The loss of the rural clinics in the surrounding communities, decreased access to care.
1134	50232	Average	Increasing - moving up	CLIN			I presented to the clinic for ringing ears/dizziness and was recommended to take Mucinex. No testing or other alternatives were offered.
1238	50208	Average	Decreasing - slipping downward	COMM	FF		poor information gathering and follow thru  There are issues with communication at the Newton Clinic which makes it that
1184	50208	Good	Decreasing - slipping downward	COMM	FF		outcomes are not being achieved because there is not follow through on the clinic's side.
1089	50208	Average	Decreasing - slipping downward	COMM	FF		There needs to be better communication and follow up for patients here in Newton
1044	50208	Very Good	Decreasing - slipping downward	DRUG			yes, overall, but sometimes the substance abuse creates extra demands on the outcome and delivery of care
1249	50208	Good	Not really changing much	EMER	FAC		Waiting in ER is not safe or efficient
1126	50009	Good	Decreasing - slipping downward	EMER	TRAIN	STFF	ER efficiency, knowledgeable staff. Willingness to collaborate with other providers
1120	50208	Average	Decreasing - slipping downward	EMER			Don't have the er doctors to take care of health problems
1145	50028	Very Poor	Decreasing - slipping downward	EMER			Er services
1215 1292	50208 50135	Average Average	Not really changing much Not really changing much	EMER EMS			ER EMTs are in short supply.
1043	50208	Good	Not really changing much	FEM			I do not feel I can get adequate Women's health needs locally
1174	50208	Average	Decreasing - slipping downward	HH			Home Health
1108	50208	Poor	Decreasing - slipping downward	MISD	TRAIN		The outcome of care is so bad in Jasper County that any actual resolution other, than the death of one of my family members, was provided by entities outside of Jasper county. I was seen multiple times by local physicians in ER and Clinic and was told there was no problem. I then find out I have lesions on my brain. Not sure how you fix a system of largely disconnected or incompetent doctorsMaybe tell your doctors to listen to patients and not make judgements about their character and subsiquent lifestyle.
1223	5208	Poor	Decreasing - slipping downward	MISD			if they would of checked a year ago, they would of find out what is wrong with me Sick for a year no Covid!
1298	50028	Poor	Decreasing - slipping downward	MISD			Most times you must make repeated visits to get the proper diagnosis.
1058	50054	Poor	Decreasing - slipping downward	MISD			too many return trips for more examinations
1196 1304	50208 50208	Very Poor Average	Not really changing much Not really changing much	NO NO			Most of the time going to the doctor is a waste of time. Nothing is helped.  Not always
1214	50208	Good	Increasing - moving up	OK			Not a yes/no answer. Overall care is very goodthere are certainly exceptions.
1051	50208	Good	Not really changing much	OUT			Conditions that are above minor issues are typically transferred to DSM hospitals so local outcomes are difficult to judge as local treatment is likely not occurring in a lot of cases.
1221	50208	Average	Not really changing much	OUT			We are limited and advanced care must go to DM or lowa City
1126	50009	Good	Decreasing - slipping downward	PART			ER efficiency, knowledgeable staff. Willingness to collaborate with other provider
1158	50208	Good	Not really changing much	PRIM	SCH		health care has become fractured. (Hospitalists see all in patients, multiple specialty providers for every complaint, can't see my primary so my chronic complaint gets managed by yet another provider),
1147	50208	Average	Not really changing much	QUAL	DOCS	COMM	Better quality docs who listen to patients.
1256	50208	Good	Increasing - moving up	QUAL			People are often sent home with no other options to services.
	50054	Good	Not really changing much	REF	CLIN		It seems that there are a lot of people who get transferred out of a local clinic, hospital to the Des Moines area.
1320	50208	Average	Not really changing much	REF	SPEC	OUT	I often have to be referred to a specialist outside of the area.
1157	50208	Good	Not really changing much	RURAL	QUAL		Can't handle advanced care.
1303	50208	Average	Not really changing much	SCH	DOCS		It is difficult to get a doctors appointment Unsure how long it is taking to get into Newton Clinic with the addition of 2 urgent
1061		Good	Decreasing - slipping downward	SCH	PRIM		clinics. There was a problem in the past to try to get an appointment with primary Dr. A Yearly physical would need to be scheduled out 3 months.
							We are short staffed everywhere and it's hard to make sure we are giving the 1:1
	50158 50208	Average Poor	Decreasing - slipping downward  Not really changing much	STFF	RUSH		oare without feeling rushed to get going to the next patient  Unqualified staff

			CHNA 2022	Con	ımun	ity F	eedback: Jasper Co, IA (N=341)
ID	Zip	Rating	Movement	c1	c2	c3	What "new" community health programs should be created to meet current community
						CS	health needs?
1154		Good	Not really changing much	ACC	INSU		Better access to affordable health insurance  Homeless shelters and resources, more mental health programs, guided activity programs for all
1018	50208	Good	Not really changing much	ACC	TRAN		age levels, access to more medical transport
1298	50028	Poor	Decreasing - slipping downward	AGE	HH		Senior in home care. Elderly care in every town, not just Newton.
1160	50208	Average	Increasing - moving up	AGE			An online senior chat place for us senors to interact with people our age. Things like, gardening, pets, family, health, I know not one senior here and I have been here three and a half years, and with Covid I don't go out but once or twice a month for an hour or two. There needs to be a way to get to know people our age to talk. My dog does not talk back much.
1091	50208	Good	Increasing - moving up	AGE			More options for residents suffering from Alzheimer's or other forms of dementia.
	50208		Decreasing - slipping downward	ALL	BED	QUAL	Before we create something new, we need to fix what is broke. If the broken system was working that is in place now, we could save the money and the efforts of trying to staff something else. We have systems in place now, however they are broken and not in working order. We need a much better "How can we help" mentality. We need Dr's that look at each patient as an individual, and treat them not just their age, we need Dr's in the ICU. Those are the sick of the sick, they need the best of the best, not someone that mistakes one patient for another and doesn't know your name and misdiagnoses you. We need the system in place that is meant to be in place before we go trying to build something else. Lets not just pull wool over our eyes and try to look at something pretty and new. It too will fail if our standards are not brought up to point of Great Care at a minimum.
1103	50208	Good	Decreasing - slipping downward	ALL	STFF		Just work on current areas that need attention. I think the pandemic has left a hole in the number of healthcare workers that will take time to fill.
1326	50208	Good	Not really changing much	ALT	FEM		Holistic and alternative health, women's health
1152	50208	Good	Increasing - moving up	ВН	ACC	HOUS	Mental health needs to be the focus. People in need currently cannot access resources (i.e. treatment beds and counseling) and the ER should not end up holding people for multiple days due to a lack of available options. As a downtown business owner I observe some of the same people struggling with mental health on a daily basis. It seems these people are left no options but to wander aimlessly during the daytime hours. Some, but not all, also appear to be homeless. Would be wonderful if there was a safe community based shelter available.
1023	50208	Very Good	Increasing - moving up	ВН	AWARE	SH	more mental health partnerships/awareness - schools more wellness and prevention focused programs that incentivize people to participate pediatric focused care
1208	50208	Average	Increasing - moving up	BH	CUL	SPEC	Mental health, lgbtq specific, more specialist
1122	50208	Very Good	Increasing - moving up	BH	DRUG	HOUS	Definitely mental health care, substance abuse and homeless issues should be high priorities.
1231	50208	Very Good	Increasing - moving up	ВН	DRUG	HOUS	The issue of mental health/substance abuse as it relates to homelessness is a serious issue for out community; not sure how to address it, but that's my biggest concern at this point.
1088	50251	Good	Not really changing much	ВН	DRUG		Mental Health and substance abuse programs.
1322	50208	Good	Not really changing much	BH	DRUG	ALC	More affordable mental and drug/alcohol programz
1232		Poor		BH	DRUG		Residential mental health and substance abuse facilities.
1235 1204	50208 50208	Poor Good	Not really changing much Increasing - moving up	BH BH	FAM HOUS	DRUG	Mental health, community support for new moms/ young families mental health, homeless shelters. substance abuse.
1301	50208	Good	Not really changing much	ВН	HOUS	DRUG	More substantial mental health facilities. Homeless shelters and substance abuse programs for our vulnerable citizens.
1085	50208	Good	Not really changing much	ВН	HSP		Our community absolutely needs mental health services available-the old county home. We need to get hospice facility back.
1219	50208	Good	Increasing - moving up	BH	IP		Mental health facility for short and long term inpatient treatment.  Mental Health providers. Capstone has frequent dr turnover and has trouble scheduling. Optimae
1323	50208	Good	Not really changing much	ВН	RET		is ridiculous
1019	52211	Very Good	Increasing - moving up	BH	SPEC	PAIN	mental health programs/centers continue to bring in more specialties-pain and ortho
1233	50208	Average	Decreasing - slipping downward	ВН	SPRT	HRS	Mental health programs that utilize group counseling sessions both during and after business hours. More hours where a PCP or other non-emergent care is available.
1175		Very Good	Increasing - moving up	BH	SUIC	CTEE	Mental health & suicide prevention
	50208	Average Poor	Not really changing much  Decreasing - slipping downward	BH BH	UP	SIFF	Mental health inpt facilities and qualified staff  Mental health counseling and therapy.

1247 5020	08 Very Good	Increasing - moving up	СОММ	AWARE		Free dental clinics, Health and wellness initiatives for all ages, incentives to get involved in the community, opportunities to serve by volunteering, increase communication of opportunities available in the community.
1108 5020	08 Poor	Decreasing - slipping downward	СОММ	CORD		Streamline communication between a patient and their primary care physician. Make a program so any phys can access a patients records if they are being seen by that phys. A program that rewards doctors for finding, treating, and resolving the RIGHT problem instead of the easiest and most obvious answer.
1239 5014		Not really changing much	COVID	PREV		prevention of Covid
1014 5020	08 Good	Decreasing - slipping downward	CUL			provide sexual education and self worth to kids based on christian values
1247 5020	08 Very Good	Increasing - moving up	DENT	EDU	PART	Free dental clinics, Health and wellness initiatives for all ages, incentives to get involved in the community, opportunities to serve by volunteering, increase communication of opportunities available in the community.
1214 5020	08 Good	Increasing - moving up	DENT	INSU	ACC	Regional dental clinic to support title X!X and low income people. This would have ahuge quality of life impact.
1257 5011		Decreasing - slipping downward	DENT			Dental Coalition to meet the needs of those on Title XIX.
1131 5020		Decreasing - slipping downward	DENT			Find a solution to county access for dental needs
1162 5020 1246 5005		Not really changing much  Not really changing much	DENT	BH	SH	Affordable dental care.  Getting providers into the schools for mental health services
1275 5020		Not really changing much	DOCS	НН	PEDS	Have more doctors available outside of Newton, have Jasper County Public Health take care of the public health needs in Jasper County, have better in-home services for the seniors, get an actual pediatrician and not just family doctors.
1120 5020	08 Average	Decreasing - slipping downward	DOCS	TRAIN		Not sure what you mean by programs as we need more qualified personnel to take care of patients
1136 5005	54 Poor	Not really changing much	DRUG	FIT	FUND	I think Jasper County is need of more services that assist people who are unhoused, need inpatient mental health care, and substance abuse help. I've had to help find emergency housing for people in my community and the police couldn't help us and there was also no shelter services in Jasper County. We had to call ministry based out of Ottumwa and local churches to help us secure temporary housing for the individual in need. Shelter and mental health services would be welcomed. I also think there is a lot of substance abuse issues in our county. My community does not have gym or recreation facilities in our town. Our residents have to drive to Altoona or Newton to work out. Funding for community wellness centers would be helpful.
1288 5022		Not really changing much	EDU	ADOL	FAM	Health and wellness information for teens, new parents and all ages
1052 5020	08 Good	Not really changing much	EDU	FINA		Education on how to live on a limited budget.
1148 5020	08 Good	Decreasing - slipping downward	EDU	NURSE	PREV	Educating the community and the nursing staff shortage and pairing it with education on what individuals can do for themselves to prevent visit to the emergency room and or urgent care.
1222 5016	69 Good	Not really changing much	EDU	NUTR	FIT	Educating on eating healthy and exercising
1331 5020	08 Good	Not really changing much	EDU	NUTR	PREV	More focus on wellness and nutrition. Focus on community health and prevention. Improved
1339 5070		Decreasing - slipping downward	EDU	TRAN		pediatric services.  More community resource navigators, and transportation mobility managers to help people needing
1317 5020		Decreasing - slipping downward	EDU			to find rides
1336 5020		Not really changing much	EDU			More wellness programs for anyone Wellness programs
1300 5020		Not really changing much	FAM	FEM	HOUS	A family planning/Women's health clinic. A homeless shelter. Another health clinic. Another eye care clinic. Bring back the hospice wing at the hospital.
1176 5063	38 Average	Not really changing much	FAM	STD	FAM	Family Planning and STI/HIV testing. There has been a huge increase in Syphilis cases not only in lowa, but across the nation. A community health program that offered testing and family planning services would be a benefit to the community.
1186 5020	08 Very Good	Not really changing much	FEM	FAM	ACC	Smoking cessation, nutritional education, and women's health programs targeting access for teenagers and early twenties with limited access to healthcare.
1223 5208		Decreasing - slipping downward	FEM	PEDS	BH	Something for women health, children, and mental health
1311 5020		Not really changing much  Not really changing much	FINA FIT	EDU		Affordable ones. Sliding fee scale.  Low cost Fitness classes that do not require a membership to a facility. Educational programs that
1041 5020	+	Not really changing much	FIT	REC	ADOL	promote wellness  New gym space/workout center/more gyms for the community and kids to be able to use and excel

			CHNA 2022	Con	nmun	ity F	eedback: Jasper Co, IA (N=341)
ID	Zip	Rating	Movement	c1	c2	с3	What "new" community health programs should be created to meet current community health needs?
1102	50208	Good	Increasing - moving up	HOUS	DRUG		We need a hepatologist, gastroenterologist, infectious disease specialist, or nurse practitioner who focuses on liver disease for Hep C treatment. I have Hep C & I've seen alot of homeless people around town. When I was homeless, I didn't know any other homeless people that weren't drug addicts. With that being said alot of drug addicts end up getting then spreading Hep C.
1153	50208	Average	Not really changing much	HOUS	INSU		For homeless For no insurance
1136	50054	Poor	Not really changing much	HOUS	IP	ВН	I think Jasper County is need of more services that assist people who are unhoused, need inpatient mental health care, and substance abuse help. I've had to help find emergency housing for people in my community and the police couldn't help us and there was also no shelter services in Jasper County. We had to call ministry based out of Ottumwa and local churches to help us secure temporary housing for the individual in need. Shelter and mental health services would be welcomed. I also think there is a lot of substance abuse issues in our county. My community does not have gym or recreation facilities in our town. Our residents have to drive to Altoona or Newton to work out. Funding for community wellness centers would be helpful.
1084 1318	50153 50208	Good Average	Increasing - moving up Increasing - moving up	HOUS			Homeless shelter program we need something to assist with the homeless population
							A homeless shelter should be put in place for homeless people to go. A crisis center would be
1258	50208	Average	Not really changing much	HOUS			appropriate.
1064	50208	Good	Not really changing much	HOUS			Homeless shelter
1209 1202	50208 50208	Average Average	Not really changing much  Not really changing much	HOUS			Homeless shelters PCP, women's health, and dentists that accept common and state insurances.
			, ,				Ultimately, another skilled nursing care, inpatient hospice or a hospice house, and more investment
1256	50208	Good	Increasing - moving up	NURSE	HSP	IP	in case management and social work.
1006	50208	Very Good	Increasing - moving up	NUTR	ADOL		I wonder if we need to address hunger as the SNAP program is being cut. How can we as a community help? Will children have more health issues if they don't eat properly?
1004	50208	Good	Not really changing much	NUTR	FIT		I wonder why we have such limited fresh food vendors at our farmers market. Any why do so many parents drive their kids to school rather than have the kids walk? Is it a safety issue? A lack of sidewalks?
1066	50208	Average	Increasing - moving up	NUTR			More dietitian-based programs. There is a lot of inadequate and inappropriate "nutrition" advice and programs in town that are MLM based and just trying to make people money. They are not truly educated in nutrition and they can provide harmful information when nutritional advice and recommendations are not individualized and evidence-based.
1109	50208	Average	Decreasing - slipping downward	OBES			Really need to address the obesity problem.
	50135	Poor	Decreasing - slipping downward	OBES			Weight loss
1320 1019	50208 52211	Average Very Good	Not really changing much Increasing - moving up	OBES ORTHO			Weight loss mental health programs/centers continue to bring in more specialties-pain and ortho
1126	50009	Good	Decreasing - slipping downward	PART	FAM		Collaborative events with all providers Parenting classes for all ages of children through 18
1313	50208	Poor	Not really changing much	PEDS	BH		Pediatrician, more mental health services.
1134	50232	Average	Increasing - moving up	PEDS	NUTR	HOUS	Pediatrician, expanded access to nutrition services, homeless shelters
1083	50208	Good Good	Increasing - moving up  Not really changing much	PEDS PEDS			Still need pediatrics  More focus on wellness and nutrition. Focus on community health and prevention. Improved
1061		Good	Decreasing - slipping downward	POV	HOUS	BH	pediatric services.
1026	50317	Average	Increasing - moving up	PREV	EDU	БП	Addressing/providing the needs for the poor, homeless, and mentally ill.  preventative care/overall health and wellness programs. more integration of preventative care into
1244	50208	Average	Not really changing much	PREV	FAM	BH	current primary care services.  Crisis prevention in the home with families with behavioral children.
1023	50208	Very Good	Increasing - moving up	PREV	PEDS		more mental health partnerships/awareness - schools more wellness and prevention focused programs that incentivize people to participate pediatric focused care
1202	50208	Average	Not really changing much	PRIM	FEM	DENT	PCP, women's health, and dentists that accept common and state insurances.
1098		Average	Not really changing much	SANI	HOUS		Needle drop boxes, more services for houseless individuals
	50208	Average	Not really changing much	SERV	BH	ADOL	Better and more choices. Better mental health care services. Especially for children.
1333 1186	50208 50208	Good Very Good	Increasing - moving up  Not really changing much	SH	NUTR	EDU	School based programs Smoking cessation, nutritional education, and women's health programs targeting access for
1196	50208	Very Poor	Not really changing much	SPEC	EMER	EQUIP	teenagers and early twenties with limited access to healthcare.  Have specialist in every category based here, not just traveling here. Full diagnostic suite at ER. Anything beyond a xray or Cat Scan a person has to be transported to a larger cities' hospital. This hospital should be fully equipped.
1002	50208	Average	Decreasing - slipping downward	SPRT	AGE		Support groups for family of elderly
1158	50208	Good	Not really changing much	SPRT	FEM	FAM	support systems for breastfeeding and new parents
1256	50208	Good	Increasing - moving up	SS			Ultimately, another skilled nursing care, inpatient hospice or a hospice house, and more investment in case management and social work.
1040	50208	Average	Not really changing much	STFF	RET		Recruitment and retention of trained medical personnel Suicide prevention, advocates for teen pregnancy, more mental health availability so people do not
1266	50208	Good	Increasing - moving up	SUIC	TPRG	BH	need to wait very long for help.
1294 1157	50208 50208	Average Good	Not really changing much  Not really changing much	TELE	AGE	DISB	after care where you can call when you have a diagnose to answer questions or concerns  Transportation out of town for senior and disabled people.
	50208	Average	Decreasing - slipping downward	TRAN	BH	DIGB	we need better transportation and better mental health services.
1241	50208	Average	Increasing - moving up	VACC	CLIN		Drive through shot clinic
		Cood	Increasing - moving up	OIV	BH		Domestic violence shelter. Better mental health screening processes.
	50208 50208	Good Good	Increasing - moving up	VIO	HOUS		Domestic Violence services/homeless services

#### Let Your Voice Be Heard!

MercyOne Newton Medical Center is working with the Jasper County Health Department to survey the community in order to assess the health needs in Jasper County. Therefore, we need your help to complete the 2022 Jasper Couty, IA Community Health Assessment (CHNA).

To gather current area feedback, a short online survey has been created to evaluate current community health needs and delivery.

While your participation is voluntary and confidential, all community input is valued. Thank you for your immediate attention! Deadline to participate is <u>March 3rd, 2022</u>

1. In your opinion, how would you rate the "Overall Quality" of healthcare delivery in your community?  Overy Good  Overy Good  Overy Poor  Overy Poor	
2. When considering "overall community health quality", is it  Increasing - moving up  Not really changing much  downward  Please specify why.	
3. In your own words, what is the general perception of healthcare delivery for our community (i.e. hospitals, doctors, public health, etc.)? Be Specific.	

	4
. From our past CHNA, a number of health mose an ongoing problem for our community?  Mental Health (Diagnosis, Treatment, Aftercare, Physicians)  Drug / Substance Abuse  Homeless (Shelters)  Obesity (Nutrition / Exercise)  Primary Care  Visiting Specialists  Domestic Violence / Sexual Assault  Healthcare Transportation	
Child Care Services  Senior Living / Care	Dental Care
. Which past CHNA needs are NOW the "mos	st pressing" for improvement? Please select
nree.  Mental Health (Diagnosis, Treatment, Aftercare,	Emergency Room
	Suicide
Mental Health (Diagnosis, Treatment, Aftercare, Physicians)	Suicide Family Planning Women's Health
Mental Health (Diagnosis, Treatment, Aftercare, Physicians)  Drug / Substance Abuse  Homeless (Shelters)	Suicide Family Planning Women's Health Health Engagement Recreation / Wellness Activities
Mental Health (Diagnosis, Treatment, Aftercare, Physicians)  Drug / Substance Abuse  Homeless (Shelters)  Obesity (Nutrition / Exercise)  Primary Care	Suicide Family Planning Women's Health Health Engagement

7. In your opinion,	, what are the	root causes of	"poor health" i	n our commun	ity? Please select
top three.					
Chronic Disease			Limited Acc	cess to Mental He	alth
Lack of Health &	& Wellness		Family Assi	stance programs	
Lack of Nutrition	n/Exercise Servic	es	Lack of Hea	alth Insurance	
Limited Access t	to Primary Care		Neglect		
Limited Access	Specialty Care				
Other (Be Specific).					
8. How would our co	mmunity area	residents rate	each of the fol	lowing health	services?
	Very Good	Good	Fair	Poor	Very Poor
Ambulance Services					
Child Care					
Chiropractors					
Dentists					
Emergency Room					
Eye Doctor/Optometrist				$\bigcirc$	
Family Planning Services					
Home Health					
Hospice/Palliative					
Telehealth					

9. Ho	w would our	community area	residents rate	each of the	following	r health s	ervices?
-------	-------------	----------------	----------------	-------------	-----------	------------	----------

	Very Good	Good	Fair	Poor	Very Poor
Inpatient Services					
Mental Health Services				$\bigcirc$	
Nursing Home/Senior Living					
Outpatient Services					
Pharmacy					
Primary Care					
Public Health					
School Health					
Visiting Specialists					
Walk-In Clinic Access		$\bigcirc$	$\bigcirc$	$\bigcirc$	

### 10. Community Health Readiness is vital. How would you rate each of the following?

	Very Good	Good	Fair	Poor	Very Poor
Behavioral/Mental Health					
Emergency Preparedness					$\bigcirc$
Food and Nutrition Services/Education					
Health Screenings/Education					$\bigcirc$
Prenatal/Child Health Programs					
Substance Use/Prevention					$\bigcirc$
Suicide Prevention					
Violence/Abuse Prevention					
Women's Wellness Programs					

Yes	○ No
