The contract will run July 1st, 2025, to June 30th, 2026, and services will be paid for in full for that time period. Contract will auto renew every year unless the Client gives 90 days' notice (on or before April 2nd each year) that they wish not to renew the contract and for what reason in writing by email. Year two in the contract will run from July 1st, 2026, to June 30th, 2027, and will continue to auto renew unless notice is given 90 days prior (on or before April 2nd each year) before the start of the next season (July 1st every year).

Membership Rebate:

Every year at the ISAC Conference in December, Dynamic Data Inc. will recap with the counties how much capital is within Dynamic IoT Data Inc. and the profit for that year. Each year when the profit exceeds \$50,000.00 will perform a 25% profit sharing to counties, each year a county is part of the program will be 1 token towards the profit-sharing program.

E.G. in 2025 Dynamic IoT data shows they have a \$60,000.00 profit 25% of that profit \$15,000.00 will be shared among all the counties. If it is determined that there are 22 tokens in the system each token would give the county \$681.81, and your county has 2 tokens in 2025 would be a one-time credit of \$1,363.06 on the 2026 contract price. A maximum one-time credit on the contract price is 25% rebate of the overall contract price that year.

The Future of Dynamic IoT Data Inc.

Currently Dynamic IoT Data is working with the County Engineer's GPS System (CEGS) group, but we welcome the opportunity to work with the Service Bureau in the future. They will be welcome to collaborate more closely in the future and will be given the opportunity to secure the entire overall system, technology, and data before an offer is made to any other organization.

General Assistance Director Connie McQuiston asked to make a change to the General Assistance guidelines and the amount and services the County will be providing. The County is currently paying for both burials and cremations ranging from \$800.00 to \$1,200.00 per service. Connie would like to start funding only cremations and would like the Board to consider moving the maximum allowable amount to \$1,200.00. Engineer Mike Frietsch would like the Board to consider switching from Verizon, which is tracking the usage and travel path of all Engineer vehicles to Dynamic. This comes with a reduced cost and there are several other Counties that are switching to the company. The Board is recommending that Dennis Simon move forward with creating a job description for a shared position between Conservation and the Engineer for a clerk. Adam Sparks requested the Board consider filling a Maintenance Tech position after an employee left employment and are of the consciences that they would like to fill the open position. Lori Nore talked with the Board regarding the Salaried Non-Department Head condensed pay scales. The Board would like those employees to stay at the top with supplemental pay to get them at the wage they are making as of July 1, 2025. There will be no increases for those salary employees.

Motion by Cupples, seconded by Nearmyer to adjourn the Tuesday, August 19, 2025, meeting of the Jasper County Board of Supervisors.
