Mike Frietsch and Jason Lowry discussed the right-of-way issues in Newburg with the Board. Due to the 20 feet sitting inside what was once in the City of Newburg, Jason is asking the Board to look at this situation in a different perspective. Jason Lowry is not willing to survey and put his stamp on the plat of

survey if the Board wishes to continue with splitting the 20 feet in half and dividing it between landowners. Adam Sparks spoke with the Board concerning the key fob system at the Administration Building and explained three different scenarios the Board can do, and the costs associated with all three options. Adam is proposing putting a new key fob system in the Administration Building to get away from licensing fees and we would then own the system for \$25,000.00. There is room in the budget with the electrical panels not being updated this year. The Board would like Adam to put a bid on the agenda to bring in a new key fob system. Adam would like to purchase a new trailer with sides and divvy the two current trailers to other departments. Conservation and the Engineer are willing to take the 2 older trailers. The Board is okay with transferring the old trailers out and purchasing the new heavy-duty trailer.

Motion by Nearmyer, seconded by Cupples to adjourn the Tuesday, October 28, 2025, meeting of the Jasper County Board of Supervisors.
